## EDUCATION

---

### Hunter College

*Bachelor of Arts in Computer Science, Minor in Math*

Manhattan, NY

*Aug. 2019 – Dec 2023*

## EXPERIENCE

---

### Store Manage

Jan 2017 – Present

*Perez Grocery*

- Ensure overall condition of store environment is up to standards
- Tend to customers and store products
- Perform administrative duties:
  - Process orders and incoming product shipment
  - Manage staff, payroll, and work hours
  - Monitor/analyze costs and profits

### Student Tutor

Sep. 2018 – June. 2019

*High School of Telecommunication Arts and Technology*

*Brooklyn, NY*

- Assisted students with homework, reviewing lessons/assignments, and preparing for upcoming tests
- Developed lesson plans and progress sheets to monitor and ensure students were on track

## PROJECTS

---

### NFT Floor Tracker | [Code](#)

- Developed a NFT price tracking bot using python that highlights the feature of real-time price updates for specified NFT collection, allowing users to stay informed

### Personal Portfolio Website | [Code](#)

- Designed and developed a dynamic personal website that showcases my portfolio. Utilizing HTML, CSS, JavaScript, and React, the website presents a professional and user-friendly platform for potential employers or clients to view and interact with my projects

### Fitness App API | [Code](#)

- Developed a REST API using Python Flask and built data storage models. Set up a local MySQL server with Docker for development. Implemented JWT for secure authentication.
